### Freelancing - Fiverr

Level 1 Seller on fiverr

- With over 40+ successful Flutter and Blender projects, I am level 1 seller on fiverr.

## PROJECTS

---

All of my Flutter projects can be found in the following GitHub repository along with the screenshots and Links: ([GitHub.com/Hmmza-tariq/Flutter-Projects](https://github.com/Hmmza-tariq/Flutter-Projects)). Some of these projects are described below:

### Green-Eats - App

Developed Green Eats, a full-stack grocery app with admin panel, available on multiple platforms including [Play Store](#), [App Store](#), and [Website](#). Used Flutter for the front-end and Firebase for database, authentication, hosting, notification service, cloud functions and other cloud features. ([Screenshots](#))

### Roame - App

Developed 'Roame', a full stack tour planning app with advance AI features. It connects with multiple social media platforms and let the user view see the trending places on that social media app. User can book a hotel / restaurant or a whole trip. It includes backend services, SQL database management, and integration with third-party API for maps, social media, and payment gateways. ([Screenshots](#))

### My NUST - App

Developed My NUST App ([Play Store](#)) for university students using Flutter. Added many smooth animations and other features like in app web-view, notification reminders, download PDF and encrypted secure local database, etc. It includes tools such as GPA calculation, note-taking, LMS access, hostel dues checking, add reminders, etc. ([Screenshots](#))

### Sleep - App

Developed 'Water flow', a smart water level monitoring app that can monitor real-time water level and flow rate,

using an IoT device. It also keep record of water level of the whole month. Other main functionalities include Geo-fencing, that will send notification to the user when he/she is out of range and water level alert when reminder is set to particular level. User can also turn on and off the water valve using the app. ([Screenshots and apk](#))

### **Hexagone - Game**

Developed 'Hexagone', a TPP open world game made in unity. This game is based on the building of Computer and software department at NUST CEME. It additionally consist of three mini games: A mini arcade game, a car race and a zombie killer game. All the 3d models are made in blender and the game is build using unity. ([Screenshots and apk](#))

## **CERTIFICATIONS**

---

### **The Complete Flutter Development Bootcamp with Dart**

June 15, 2023

Platform: [Udemy](#)

Instructor: Dr. Angela Yu

Length: 28.5 total hours

### **Flutter Advanced Course - Clean Architecture With MVVM**

Aug 28, 2023

Platform: [Udemy](#)

Instructor: Mani Farid

Length: 20.5 total hours

### **International Kangaroo Mathematics Contest**

[2014](#), [2015](#), [2016](#)

By: [IKMC](#)

Highest Position: Institution Level: 1, District Level: 5, National Level: 39

Highest Level: Cadet

### **NUST High Achievers certificate**

[2022](#), [2023](#)

By: [National University of Science and Technology](#)

Semester: 3rd, 4th
