MTB College, Sadiqbad

WORK EXPERIENCE

I have self-taught myself web development and Flutter app development, utilizing my summers to immerse myself in creating apps. During this time, I've dedicated myself to exploring and learning new features of development, ensuring that my creations are both useful and enjoyable, blending utility and leisure seamlessly.

PROJECTS:

MY NUST APP:
Developed My NUST App for my University which has been a success. It is very popular among students. And 1k+ downloads on Google Play store.

GREEN-EATS APP:
Developed Green Eats, a full stack, cross platform grocery app. It is available on Play store, Appstore, and website.

WEBSITES AS AN INTERN:
Worked as an Web Development Intern at **Eziline Software House Pvt Ltd, Rawalpindi, Punjab, Pakistan**. It was really a wonderful experience. I learned so many new things as a front-end developer. Developed many websites that taught me to tackle problems arising while developing websites and also improved my critical thinking ability.

Programming Languages:
